

East Mountain

Community

Wildfire

Protection

Plan

**What would help your family and
our community be better
prepared for wildfire?**

The **East Mountain Community Wildfire Protection Plan (EMCWPP)** is being updated and we need your help. This important survey should take less than 5 minutes to complete. Results from a previous survey indicated strong public support for free green waste days at the transfer station which didn't exist at the time. We now have weeks of free green waste disposal each year.

Your opinion counts!

Answers will not be shared beyond this project and will only be published when consolidated with other survey responses. **If you choose to provide contact information, you will be entered in a drawing to win a free cord of wood delivered to your home.**

The original EMCWPP is available at: <http://emifpa.org/links.php>
